

Australian AUTHOR

**The magazine for writers and readers
and everyone who loves books.**

... it's written by people who know about writing and care about writers. **Kate Grenville**

Australian Author has been the most professionally helpful and most entertaining journal available to Australian writers. **Tom Keneally**

I love Australian Author for the news and information, for the gossip, and even for the ads. But most of all, I love it for the way it helps reduce the sense of isolation inherent in the writing life. **John Marsden**

... a compelling read that breaks news and examines writers' issues. **Susan Wyndham, SMH**
